

EMALTE EM-SCADA-2021

EMALTE is a Whelen Engineering Master Distributor for its Mass Notification (Outdoor Warning Systems). For clients requiring a custom design Monitoring and Control System, EMALTE Engineers have engineered a fit for purpose SCADA application.

Custom screen options include:

- Map interface
- Dashboard
- Individual Site Mimics
- Alarms
- Trends
- Communications map and analytical data
- Reports
- Access to Manuals

Communications can be via:

- Fibre
- Twisted pair Cable
- Cellular
- Radio
- Satellite

We offer both a licenced application that includes support and automatic updates and a more basic SCADA application that has no ongoing annual fees.
